Drone Market Report
Market Size and Growth 2019-2024
Our Services

We offer tailor made solutions to support decision-making, business model generation and operational improvement.

On Demand Market Studies
Market insights and detailed commercial evaluation of products and solution offerings.

Business & Regulatory Advisory
Helping clients successfully build business models, raise funds, and support with regulation updates and advice for responsible business strategies.

Recruitment Service
Drone recruitment advice and service, leveraging the DRONEII network.

Research Subscription
Retainer agreements to support your ongoing drone projects.
Our Services

The result of our On-Demand Market Studies usually is a comprehensive and factual report explaining observations in detail and specifying learnings/key-insights per issue.

Starting point
Approach
Requirements for system and environment
Market overview and competitive analysis
Quantification of target group
Applications and industry verticals
Market opportunity
Emerging technologies
State-of-the-art technology
Overall trends and perspectives
Regulatory requirements
Go-to-market framework
SWOT analysis
Next steps

Selection represents typical parts of our reports. Not all aspects must apply.
Our Services
We help you create the most responsible business strategy through drone market research, competitive analysis of your product and/or service, immersive workshops and on-site research.

Competitive Intelligence
In-depth comparative analysis of drone products or services

Go-to-market strategies
Detailed research and advice to help you enter the drone market

Commercial due-diligence
Market research of a potential partnership or acquisition

Regulatory Advice

The Drone Readiness Index
Compare national drone regulations across the world

EU Regulations Advisory
Information and advice about the current EASA regulations

Standards and Certifications Advice
Up to date information about certification processes across the globe

Business Consulting
Recruitment Services
We help you find the right people to power your drone business or project.

As drone market intelligence specialists, we leverage our extensive drone expert network to find the right contract or permanent recruitment solution to implement your drone strategy.

Your added value:
- Guided recruitment (helping you define the skill-sets you require)
- DRONEII network (experts and head-hunters)
- Zero risk (money back guarantee)
Research Subscription
We offer retainer agreements to support your ongoing drone projects.

Do you need our regulatory advice, market business intelligence or strategic expertise regularly?

We offer retainer agreements for our services, which help us build relationships of trust and reliable research support.

From as little as €500 a month you can subscribe to our monthly research services. We are then on call to you for a minimum number of hours as a priority client.

Why Work With Us
We focus on adapting new technologies and processes to support your business.

Thought leadership in an emerging industry

Profound and independent industry knowledge

Implementation-consulting and industry expertise

We provide a strong network to the key players of the industry
Tried and Tested

Our customers value our deep industry knowledge, network and the way we help to build sustainable business models.

“I find it really impressive how the DRONEII.com team have built up a broad and proprietary knowledge base around the commercial drone market ecosystem.”

Bastian Schäfer
Innovation Manager, Emerging Technologies & Concepts AIRBUS

“Drone Industry Insights offers a broad market overview and convinces with profound studies on the trends and application areas of commercial drones. The data of Drone Industry Insights enable a focused development of our product portfolio and quickly reveal opportunities and risks.”

Benjamin Federmann
Director Marketing & Communications, Leica Geosystems

“Companies need actionable insights to help guide their businesses forward. DRONEII.com has proven to be a reliable, informed resource for our customers and vendors. We not only rely on them for information about our own business but have had them keynote our event to provide this insight to hundreds of our customers.”

Lisa Murray
Group Director, Commercial UAV Expo Americas/Europe

“DRONEII supported us well by providing specific market research including helpful measures and by establishing a relevant network. In my opinion, there is no one who better summarizes the European drone market than DRONEII.”

Marisa Ziegler
Manager Business Development, TÜV Sud Product Service GmbH

“The market study and insights provided by DRONEII.com helped us to align our future services in terms of market needs, competition and go-to-market strategy.”

Ulrich Hoffmann
Project Lead UAV Services Development, Lufthansa Technik AG

“Drone Industry Insights has become a trusted and reliable partner for ZAL and especially Hamburg’s drone network WINDroVe. Their in-depth market knowledge and trend assessment have given us valuable information on the commercial drone ecosystem and the technology trends specifically in urban environments.”

Christina Große-Möller
Project Manager, ZAL Center of Applied Aeronautical Research

“As the primary representative of the aerospace industry in Germany, it is important to fully comprehend all aspects of the evolving drone market. DRONEII.com helped us to get an even better understanding in a comprehensive and in-depth drone market study.”

Volker Thum
Managing Director, BDAI - German Aerospace Industries Association

“The team of DRONEII.com helped us to find networks and channels to regional markets to reach a stable position in the global drone industry.”
